PRODUCT RANGE

Traditional Boarded

The beautiful range of tongue and grooved boarded doors enhance the appearance of any modern or period designed home. They are very tough and durable manufactured in the highest quality Western Red Cedar boards which are glue bonded into a solid cedar frame. The frame is traditionally constructed with solid cedar stiles and rails, all joints are morticed and tenoned, glued and wedged which is the strongest joint method in door construction. Doors are available in made to measure sizes from 6ft to 18ft wide by 5ft 6ins to 8ft high on smooth running fully retracting door gear, with an option of canopy gear on some doors up to 8ft wide.

Traditional Panelled

Our range of panelled doors enhance the appearance of any modern or period designed home. Again these are very tough and durable, manufactured in the highest quality exterior 9mm plywood panels which are glue bonded into solid a cedar frame. The frame is traditionally constructed with solid cedar stiles and rails, all joints are morticed and tenoned, glued and wedged which is the strongest joint method in door construction. Doors are available in made to measure sizes from 6ft to 18ft wide by 5ft 6ins to 8ft high on smooth running fully retracting door gear, with an option of canopy gear on some doors up to 8ft wide.

Traditional Solid Panelled

This range of Solid Panelled doors offer a higher quality option over plywood with a 20mm solid thick moulded Cedar panel giving a better texture and colour match to the stiles and rails of the frame. This again is traditionally constructed with solid cedar stiles and rails, all joints are morticed and tenoned, glued and wedged which is the strongest joint method in door construction. Doors are available in made to measure sizes from 6ft to 18ft wide by 5ft 6ins to 8ft high on smooth running fully retracting door gear, with an option of canopy gear on some doors up to 8ft wide .

Traditional Side Hinged

The range of Side Hinged doors are an alternative option to the Up & Over method of doors giving a more conventional opening style of garage door these are traditionally constructed with solid cedar stiles and rails, with panels of either plywood or solid cedar, all joints are morticed and tenoned, glued and wedged which is the strongest joint method in door construction. Doors are available in made to measure sizes from 6ft to 10ft wide by 5ft 6ins to 8ft high . with choice of hardware combinations to suit your style.

Sectional Overhead

Vertical lifting doors are a new concept in domestic garage door operation. Our range of sectional overhead doors offer all the same advantages of up & over doors and are constructed to the same high standard and specification as the traditional range of doors but with a different method of operation.

Sherwood Range

The Sherwood range of timber doors are manufactured using selected cedar or plywood with selected cedar facings from sustainable sources. They are mounted within a pre-finish aluminium boundary frame with steel bracings to reinforce the panel, making it very stable and durable. Doors are available in made to measure sizes from 6ft to 18ft wide by 5ft 6ins to 8ft high with an option of canopy gear on doors up 8ft wide.
